Privacy: Blocks tracking pixels and tracking cookies. Notes. This is the official version of Brave. It's in constant development with new releases... and still in developer beta. It's not 100% secure, but it's the safest way to use any kind of online advertising. As you can see, it uses the same ideas as Brave Browser, which is used for cookie-based ad blocking and pixel tracking. So how do you install and use this browser? Let's deal with this. Start by downloading the installation file from this link: <https://brave.com/download/windows/>.
