Transforming urban areas into vast military installations, and military stations into moving communities, the Iron Defense uses its latest technology to create a world where the sole purpose is to protect. Since the emergence of the Seven Colonies, the Iron Defense employs one of the largest Territorial Regiments in the known Universe. Their goal is to enforce the Iron Defense doctrine across all known worlds: a vision which values the protection of natural resources for the continuation of the human race. The Iron Defense believes that the Earth is the only planet in our Universe that hosts the possibility of life, and that everything else is essentially worthless. All the other planets, moons, and asteroids are irrelevant to us, and all their resources must be protected. The only option for the survival of the human race is the total domination of the solar system, and the colonization of the alien worlds. Our mission: restoring the order and balance to the Universe that the Iron Defense has lost.

_____ I'm a great supporter of the Art of Video Games Soundtracks, a great artist, musician, engineer and producer, i developed a musical style which transformed our cult-classic in the 80s, Soundtrack for Truth (Soundtrack for Truth: Disorder I). Our most important goal is to create a fun, addictive, original fun for the gamers, that let you escape from the reality, the same as the Movie Clips and Cartoon Characters on the consoles, on the TV. My favorite games series are: Castlevania, Metroid, Castlevania, Ninja Gaiden, Dragon Sword, Simpsons Tetris, Just Dance, Street Fighter, Final Fantasy, Super Mario, Dragon Ball Z, Metal Gear, Super Mario Bros., Zelda, Donkey Kong, Pokémon, Tetris, Pac-Man, Super Mario Bros., FIFA, Contra and of course Super Mario Bros. 3. If you need something in my musical style, or if you want to talk to me, send a mail to : vadick@itvap.comThe News that's fit to print: Feb. 5, 2014 LITTLE ROCK — Estimates are finalizing of the total amount lost in the flood and storm damage in Little Rock, but insurance companies are predicting losses for the damage and the historic storm to reach record highs. An increased flood levy approved by the City Council on Tuesday, which already drew protests by some residents, will allow the city to pay for, among other things, the levees, flood walls, drainage cul

The game is best played with up to 3 persons.3/5 I asked, they said: " The game requires a random number generator, so that means a computer and internet connection when the game is already set up." Does it? 3/5 The perks explain on site that you, your real life friends and family members can log into the server of the game... 4/5 No problems with this explanation7/10 Stability: The game is set to have loads of players. 5/10 It crashes alot. 2/10 Graphics: Obviously has a board of some sort, and is the best viewed on a computer or at least a good game device. 2/10 Music: None. There is no music in the game. Its a spooker. 3/10 Streams: Many. The game has excellent streams on it. The game is played 2 against 2. 6/10 Replay: When people replay the game, they usually lose their initial lives. 5/10 Balance: Player mods have very little effect on the game itself 6/10 Fun Factor: If you stay in the game long enough, it gets very fun. 4/10 Strategy: The game has no strategy and very little. 6/10 Difficulty: Its very easy, once you learn what you are doing. 5/10 Replayability: If you are more than 4 players, it gets very difficult. 5/10 Optimization: 9 times out of 10, if you make a mistake, and you have to reload, you lose your lives (Unless you use cheat codes). 4/10 Game modes: This game has 3 modes. 1. Regular mode 2. Team Deathmatch, BombingRun Mode 3. Ghost Hunt, which is a great mode. 7/10 Visuals: Its got a 4 player board, thats already great. 5/10 Cheats: There are some cheats in the game. 1.Cheat mode 2.Cheat menu 1.Player stats: When you are switching players, you can know players information. 2.Infinite lives 3.Infinite mana 4.Infinite money 5.Infinite energy 5.Rampage mode 5.Scaling scalar 6.Scaling 6.Infinite ammo 7.Infinite bombs 8.Infinite grenades

Nuku is a Japanese animated series based on Ayumi Miyazaki's manga of the same name. The story is set during an era in which supernatural phenomena are dismissed and science is not trusted. Scientists and priests are persecuted at both workplace and home by the authorities and people look to an unnamed man called the Spirit Detective, who resembles Sherlock Holmes, to solve mysterious cases. Several characters from the manga series also make appearances in the anime. The first of the 26 episodes were animated in 1990 by AIC and Digimation (now AIC Partners), who released the series on VHS and the first season on Laserdisc. The series was rebooted in 2001 in-house by Sunrise. In 2007 the series was sold back to AIC Partners who released the series on DVD as well as the second season in 2008. In 2011, both seasons were released on Blu-ray disc. The second season (Episodes 2–26) was released as the first part of the DVD and Blu-ray box set of the series in 2011. Only the 52nd episode of Ayumi Miyazaki's original manga, "Forever and Ever", was animated for the 2012 sequel Detective Conan. Sentai Filmworks acquired the rights to release the series in North America on home video in 2016. The series was named as one of the nominees for Best Animation at the 59th Primetime Emmy Awards. Plot The setting of the series is the volcanic island of Volcano Land. It has a history of destruction through the course of time, which not only damages the equipment but also people's lives. In the last episode of the series, most of its inhabitants have moved to a new town built at the top of the volcano. The only functional weather station is abandoned due to its unreliable power system, on which many people in the town depend. One day, an abnormal event occurs: a small white cat with a dark, black-spotted collar appears in the station. The cat disappears after a few minutes. This may be a clue that it is a "Spirit" and it will do harm to someone. Harumi Ishii, a 15-year-old girl, found and takes care of the cat. It becomes her pet and friend, whom she calls Nuku. She is abducted and held captive by a man named Maguro and his two hooded accomplices, and on that night, a masked man appears to save her. He introduces himself as "Spirit Detective". When he saves Harumi

Beetle Uprising is a physics and strategy game set in a vivid, beautifully designed and realistic world. 1.4.3 Thump! Take over the world in the fiercest battle of all time with this thrilling real-time strategy game with RPG elements. It's as much about looking the part as it is going all out and take over. Beetle Uprising™ is a fast-paced strategy game that combines real-time tactics (RTT) and real-time strategy (RTS) genres. Breed your army of beetles, raise them, send them into battle, and send them home! Your mission: conquer the abandoned lot and smite all who stand in your way! Breed an army of beetles, feed and raise them, then send them into battle! Beetle Uprising is a combination of real-time tactics gameplay, breeding simulation, and home building. Your mission: conquer the abandoned lot and smite all who stand in your way! Featuring a complex genetics system based on real-world science, your army of beetles can be interbred to bring out the best traits for combat, aesthetics and survivability. Look after your beetles as if they were your pets. They need food, shelter, company, toys to play with, and cleanliness: every beetle appreciates a well-kept nest. Play through 16 unique real-time-tactics (RTT) style campaign missions with your personal beetle army. Send beetles on dozens of additional solo-missions to gather resources for the home nest. From the relative safety of your nest, you will breed generations of beetles that will fan out over the treacherous abandoned lot to conquer territory and unearth its riches. Unlock the secrets of your genetic potential through careful pairings of select members of your swarm. Learn new abilities and enhance the performance of your species over generations of offspring. Biting is a dependable attack that no beetle should underestimate, but what if you could spit caustic bile? drain your enemies' vital fluids? or perhaps explode in a wondrous shower of carapace flavored shrapnel! This and more are only a few choice alleles away. should you discover them. But your domination isn't all biting and slashing. You must rear your beetles and tend to their needs of food, comfort and health. As you conquer new territories, you will retrieve the necessary resources like seeds, berries, and
