Goalkeeper: In Goalkeeper, the Keeper is better able to react to shots on goal and block crosses Goalkeeper Controls: The Keeper should be able to defend balls crossing the goal line and have the ability to block crosses.

Replacements: In a “Matchday” game where a goal is scored, Replacements will now be called in to replace a player from your squad. The position of the Replacements will be determined by where the player is on the pitch. Visually Enhanced All-Stars: The All-Star teams will be updated to the gameplay style of FIFA 21, including using a goal celebration when scoring, stronger animations, better running physics and some visual improvements on the pitch. Teams will share the same kits as they did in FIFA 21 to reflect a cohesive presentation across the entire All-Star Series. However, one of the new All-Star Series kits will be an all-new Adidas 2019 Kit. This new Adidas 2019 kit will be worn by some of the All-Stars in an official capacity only. The 2019 All-Star Series will also include an official Adidas 2019 Jersey. Official Kit: This All-Star kit is inspired by the new Adidas 2019 kit and

features an adidas 2018 training jersey, an Adidas 2019 training jersey and three All-Star jerseys inspired by different Adidas shirts. FIFA 19 Global Series: The FIFA 19 Global Series is back this year with more countries and more teams. Thanks to the new “Game of the Week” format, you will now have at least two matches to choose from every weekend.

Many of the improved leagues and competition structures will also return, with the top leagues in Europe, Africa, Asia and America receiving additional investment and attention. For the first time, there will be a FIFA 19 Global Series Trophy for the best club in each country.

Features Key:

-
- Player Career mode redefines gameplay. While other football simulation games have focused on introducing new team kits or placing players in real-life locations, we've taken it a step further to enhance the player and manager experience by not only utilising real-life models for the first time ever in FIFA, but also using motion capture data to drastically enhance the intelligence behind the player's awareness of the game and dynamic responses to the challenges it throws at them. Everything a player does and sees in training will influence their temperament in a new player 'psychological blueprint' which will allow the player to feel more confident on the pitch in real-life situations.
 - Live in another dimension. Be the centre of attention wherever you go. As a manager or a star player, you'll become the heroes of the stadiums, lounge rooms, parks, and sports arenas around the world using unique gameplay features. Become a part of the communal football experience with Star Ratings, Glorious Moments, and the community to elect a new World Footballer of the Year every year.
 - Become the best player to ever play.

The game also includes

- Online leaderboards, with new ways to compete, compete, and even conquer. Classic and new game modes including Quick Match will enable players to set up new challenges for friends and fans.
