This Lightwave plug-in packs 13 minutes of authentic, dark, and deadly samples and ready-to-fly-the-kites patches for creating mind-melting sounds. Psytrance EFX Pro is an easy-to-use sound instrument for creating weird, trippy electronic music that will get your listeners involved in its darkside world. SoftSpice may not be the cheapest brand out there, but we can assure you that their products are no cheap to produce. Their systems are made from high quality components and they know what kind of precision is needed to make the best possible instrument. Their investment in development and design should be evident. We were lucky enough to get in contact with Bastien Roussel, CEO of SoftSpice, and we can assure you that this review is accurate. The Position We will begin the overview of SoftSpice Digital Systems by mentioning that SoftSpice is a relatively new company that has a lot of potential. They started as a middleman for smaller dealers which were having trouble selling expensive Hard Disk Drives (HDDs) and Drives in general. After several years of experimenting and developing unique solutions, SoftSpice continued by launching the Digital Systems division. Even though they offer a lot of products, the SoftSpice Digital Systems division is mostly known for the XFire and XUnit systems. The products SoftSpice Digital Systems launched their newest products at the 2014 CES, where they invited us to give a sneak peek of the new products. We got a chance to play with the SoftSpice HD FaceTrack and the XFire 2. During the show, we got to see how the products would fit in the company's overall strategy: development and integration. Before we move on, we'll see what the products do by introducing each of the products: XFire 2 The XFire 2 is a full fledged media center, regardless of whether you are building a living room entertainment solution or you want to just play movies and music. The XFire 2 is home to the latest Apple Xcode 10, which will allow users to develop and build powerful apps. The XFire 2 also supports multi-room audio with the single-box solution. The most distinctive feature of the XFire 2 is its integrated home automation system, which allows users to control all connected devices via the XFire 2's user interface. The XFire 2's media interface is also equipped with DLNA support b7e8fdf5c8
