A partial list of new and updated funding opportunities listed here does not constitute an endorsement by NHN of any potential employer or educational program. NHN provides this list solely for the convenience of job seekers and students. Please refrain from interpreting any of the links on this page. The National Heritage Awards recognize the most significant contributions to the study and interpretation of North American heritage and history. The award encourages recognition of individuals, institutions, private foundations, government organizations, companies, and others for their outstanding contributions to the field of North American heritage and history. On December 6, the K-12 Foundation announced a new fellowship program, the William E. and Dorwin D. Wenger K-12 Nonprofit Education Fellowship. In partnership with the Association of K-12 Schools in Finance & Administration and the American Society for Training and Development, the non-profit organization helps middle level public school staff succeed in the financial and administrative duties of K-12 school finance. At least 60 applicants will be selected for the one year fellowship. The U.S. Department of Veterans Affairs (VA) has made available a new grant opportunity for Faculty at public and non-profit institutions of higher learning. "Academic Qualifications and Profiles for a Graduate Program for Students with Post-Secondary Education and Work in Business or Industry" supports qualified VA-recognized students, for a limited period of time, with the opportunity to secure a graduate program in a business or industry with transferable credits.

My Top 3 Ways To Get a Real Job After College Your junior year of college is a busy time; you're working hard to maintain a healthy GPA and you're also planning for the next 4 years of your life. This busy time of your life is great, but it can be easy to get distracted and lose focus on your major or career path. I am guilty of this myself. I was a Peace and Conflict Studies major at the University of Notre Dame, but after a lot of thinking about my future, I noticed that I was constantly thinking about the immediate future—like what my parents would think, or how I would fill out the seven blank pages of my last year's application. I didn't want to be that person who was suddenly not doing anything about my future. It didn't make me happy. So, I started looking for opportunities that interested me, not just what interested my parents or what interested the University of Notre Dame.

What's New in the?

Q: How to manage multiple jobs on a single machine? I'm trying to set up a cluster to simulate 10 CPUs. The problem is that CPU time is shared among all jobs so I don't know how to use the multiple (different) CPUs. I want to run several (several times) simultaneous jobs. If I use 'ps ax |grep [...]' I have every job running simultaneously, thus

sharing time. I would like to run each jobs in a separate process (it is not very big at the moment) so I can use all CPUs. Can you suggest me the right configuration for this? Thank you! A: You can run them all in parallel. I imagine that if you create a runlist that includes all of your jobs, it should run them all in parallel. Alternatively, you can start all of them in terminal windows.

Viking is pleased to announce that it has acquired the Apex Group for an undisclosed amount. The purchase will strengthen Viking's position in the North American energy and energy technology markets.

Wroclaw, August 10, 2018 - Viking today announced the acquisition of the Apex Group, the US energy technology and services company that provides technology services to the oil and gas industry. The company, founded in 1984, operates as a true technology services provider with activities in 26 countries across the oil and gas, power, process and commercial segments. Its customers include international and domestic oil & gas and power companies such as Chevron, BP, Shell, Honeywell, SABIC and Linde and Emerson. "By strengthening our position in North America, we will provide our customers with the best technology and services solutions in the region. In addition to this, in a highly competitive business, we will benefit from the complementary expertise of the company's teams and the short-term success of the major project in the US market. We have a clear strategy for Viking and we will continue to deliver a strong service offering in the energy market. Our aim is to be the best technology services provider, not only in Europe, but also in the US and in all markets where we operate," said Jacek Wolański, Chief Executive Officer of Viking. As part of the transaction, the Apex Group's management team of the US operations (including its CEO and Board) will continue to operate and provide ongoing support to its customers. As the owner of a strategic position in
