**What's new:**

**: A Toast to Riders on the Storm Misdirection (By Mason Manley) NAMBLA is an international network of men who pursue intense sexual relations with children. The “men who have sex with boys” (MSB) are generally not pedosexuals; rather, they are heterosexuals who for whatever reasons — and often, many reasons — simply find children more attractive than their partners. PEDOSEXUALITY is a specific identity, a sexual orientation. Pedosexuals don’t just practice with boys; they have intense, unhealthy relationships with them. Not all male and female same-sex sexual relationships involve both members being of the same biological sex. Nor are all same-sex sexual relationships between male-to-male (MtM) or female-to-female (FtF). But always with girls is a derogatory stereotype based on biology that few people can defend. NAMBLA and pedosexuality are not the same thing. Pedosexuality cannot exist as both a biological fact and a political denigration. Recently, I read a post on Personalliberty.org regarding demonizing heterosexual society. I highly appreciate the post and its author, but I have issues with her framing. From her post: Sexual industry brands us “trashy”: For the last 90 years of human history, most humans lived without a comprehensive sexual industry. When given the choice, most humans who weren’t being trained as sexual slaves by the state or their church also decided for themselves when they wanted to have sex. In the mainstream media, when an established culture boasts of its sexual freedom, that’s a loud peal of thunder proclaiming the arrival of sexual degeneracy. The lines of stereotypical heterosexuals and stereotypical homosexuals became clear. When female filmstars and their boyfriends stumble from one wholesome Hollywood extravaganza to the next, all we can be sure of is that the man is too repressed to declare his feelings, and the woman is more than happy to oblige. Whenever you see a middle-aged man and a young woman, the message is unmistakable. Our culture is not for them. Our culture is not for them. Our culture is not for them. There’s plenty of sex to go around but without a catch. Technically, the porn industry is enjoying a boom in its first decade of the 21st century: The number of**
