## AutoCAD

Install Crack from [www.autocadcrack.net](http://www.autocadcrack.net) Before installing the patch, we must uninstall existing version of Autocad. Go to start menu and type C:\Program Files\Autodesk\AutoCAD. Uninstall it. Then close the installer. When the installer is closed, the system will show an error prompt that the Autocad program is already running. Then, we have to use an automated file to determine which version of Autocad to launch. Click on the following link: Autocad Version Checker. It will launch an Autocad version checker, in which it will check the current Autocad version to see which one of them is the latest one. Copy it to your Autocad folder, with these instructions: Select your Autocad folder, and right click on it. Go to Properties. Select the Location tab. Paste this file into the location. It will create a new shortcut for it. Then click on Start and type into the textbox that appears: "C:\Users\YourUserName\Desktop\autocad\_version\_checker.cmd". Click on OK. After that, open the shortcut and find the value "Autocad Version" in it. Then paste it in the following textbox to launch the Autocad. "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program Files\Autodesk\AutoCAD\Autocad.exe". Then press Enter. It will open the Autocad. Update the file if there is any kind of error. After the process, you have to use the following step to check the version of your Autocad. Open the shortcut for Autocad Version Checker. Then find the value "autocad version" and paste it into this textbox. "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program Files\Autodesk\AutoCAD\Autocad.exe" "C:\Program
