Nokia SI3 Logger V.1.06

First off, I just wanted to say I'm having similar problems with the \$5000+ phone I bought to replace my Sansas. It won't register songs I've already transferred, but does register the songs I download. What I don't understand is why it does not accept the songs I've already transferred. I just received the phone and I'm trying to figure out what the problem is. Re: Nokia sl3 logger v.1.06 I'm not really sure if your problem is directly related to the Lumia 1520, but if you run into difficulties with any of the functions on your new phone, it would be a good idea to contact Support to troubleshoot the issue. They can provide technical help with the issues you may experience. You can contact them through
